ABOUT ME

I'm 27 years old and a big fan of math, physics, music, and everything tech. I've always loved exploring new technologies, developing my skills, and diving into different musical styles. I'm friendly, enjoy having good conversations, and I'm always open to new opportunities. I perform well when faced with challenges, as they push me to think outside the box and continue growing.

EDUCATION

- 2022 - 2025 | Computer Engineering
University of Coimbra
- 2020 - 2022 | Bachelor's Degree in Physics
Juiz de Fora University
- 2019 - 2021 | English Language Course
Wizard

EXPERIENCES

- **(2025) Summer Internship | Constellation | 2 months**
Developed a full stack web API using C#/ .NET, React and TypeScript. Applied Domain-Driven Design (DDD), TDD / BDD practices and CI/CD. Implemented unit and integration tests, pipelines and followed Scrum methodology throughout the project. In the end, i did a full presentation of the project for the company.
- **(2024) Summer Internship | RoboThink | 3 months**
I organized workshops and taught Scratch programming and robotics to kids and teenagers. This experience helped me develop teamwork, punctuality, and communication skills, while also improving my English through diverse interactions.
- **(2023) Certification course | Shift Appens**
I worked on a group project, contributing to project development, presentations, pitching, and teamwork.
- **(2022) Volunteer | Pint of Science | 4 months**
Contributed to the organization of lectures on various topics, developing skills in event management and interpersonal relations.
- **(2022~2025) WorkShops | University & Companies**
Attended workshops that provided valuable insights into technologies and the IT market, enhancing my understanding of industry trends and practices.
